ATMR FAIRFIELD-UPON THE SUB-TREASURY, -

After the clear demonstrations of popular dismore decidedly than in Maine, with regard to the Sub-Treasury scheme, after the Special Session of Congress, last October, it might have been reasonably expected that certain of the pertinacity with which they had adhered to this reprobated scheme This expectation, if indulged, was soon shown to be delusive. The made project was persisted in, and the lead in carry-John C. Calhoon, in the Senate, and Churchill C. Cambreleng to Pickens and Rhett of South Carolina, in the House. No one followed this new lead with more devoted slavisliness through but the whole of the last session, as the records abundantly and satisfactorily show, than John Fairfield of this State, whom the locofocos now present to the people as a suitable man fur Gov.

The Sub-Treasury Bill was taken up. a motion was made to strike out the enacting clause, which prevailed, thus defeating the bill, and Fairfield voted in the minority

A proposition was made to reconsider that vote. But a few of the friends of the administration could be raified to go for this motion, which was opposed by some of the leaders of that party as soon as made. Yet among that few, who still clung to the permicious measure, was found the name of John Fairfield

A dose of these Pills will bring it down. Is it too low? the same means will increase it to a proper standard. Is it fremulous slowing nervous excite ment? the Pills by sooth ngithe system will allay it

Thousands of the most respectable citizens of the for cash United States will be referred to with pleasure by Dr B who have for many years been in the habit of be un bled as often as four times in a year, and whose constitutions in consequence were becoming weaker and weaker but who, since they have made use of these Pills, have never lost a drop of their precious blood. Those ensible people simply by the use of these invaluable Pills, are increasing every day the powers both of body and mind which, by the practice of bleeding were both becoming dreadfully impaired.

■ TILE most sale effectual and economical remody for diseases of the Human Constitution, that has ever been discovered

These Pills are composed entirely of materials extracted from Medical Plants and are warranted not to coulain one particle of mercury, or any mineral sul stance. Dr Kingles the a ventor of this valu evidence is on the side of these Pills which, by the able medicine from his knowledge of the human system derived from a long and extensive practice. has arrived to the conclusion, that the givin and primary cause of must diseases is a derangement in the functions of the liver, or in other words an increased or diminished secretion of the Bile

So will is this understood that it is common for ersons to say when they feel unwell that they are On the other hand, when the flow of hile is diminished, the process of digestion is imperfectly because nourishment contained in the food taken into the stemach is not properly extracted and the find is ejected in a ciude state dent that the famous Hygean Theory so called that impurity of the Hood 15 the cause of all diseases." the great absurdity. Every one who reflects upon the subject a moment will perceive that impurity of the blood is a secondary, not a primary complaint the effect and not the cause of the disease he functions of the liver are deranged and the flow of bile mereased it is often taken up by it e at sorb ent vessels and extried into the circulation, and he comes mingled with the blond as in Jamidice when the patient should in his countenance. Dr. Kingley has spent much time in experiment ing with different vegetable medicines, for d seases of the liver, and now offers his Universal Family Pills as the best, most convenient and cheapest medicine that can be prepared for general use, and in offering them to the public, he is actuated more

Dr Kingley flatters himself that his long experi menting with vegetable medicines has enabled him to discover the time and only substitute answering all the purpose of mercurials, without any of their attendant evils. One great quality of his family Pills is that they have the alternine principle com bined with their cathactic or operative quality, so that they not only cleanse the stomach and bonels by purging but they regulate the liver change the morbid secretions, strengthen the digestive organs purify the blood, myigorate the circulation, and give ione and energy to the nervoussy stem

They are mild and pleasant in their operation and almost immediate conviction of their utility from the first dose. They can be taken with safety by per sons of any age, and the facile, the infirm the ner vous the delicate, are strengthened by their opera tion because they clear the system of had humirs quiet nervous critabilities and restles-ness from whatever source, and invariably produce sound
